## International Journal of Integrated Care

### Welcome to IJIC!

The **International Journal of Integrated Care** (IJIC) is an online, open-access, peer-reviewed scientific journal that publishes original articles in the field of integrated care on a continuous basis.

Established in 2000, IJIC's mission has been to promote integrated care as a scientific discipline. IJIC's primary purpose has been to examine critically the policy and practice of integrated care and whether and how this has impacted on quality-of-care, user experiences, and cost-effectiveness. Learn more about the focus and scope of the Journal by clicking [here](#).

Our 2014 Annual Conference took place in April in Brussels. Content will be posted here shortly.
